

# Password Creation

Felix and Deena think their passwords are weak. They've written down 2 of their passwords below. Help Felix and Deena create stronger passwords for their accounts based on their older passwords. You might use the same phrase but change the letters for numbers and symbols or think of an entirely new, memorable password.

## Felix's Email Account

Current Password: **Felixemail1**

Time to Crack: \_\_\_\_\_

New Password: \_\_\_\_\_
